

Design a greener packed lunch

You will need:

1. Pen or pencil

What to do:

1. Make a list of all the things you would normally have in a packed lunch.
2. Discuss how green these things are – for instance, consider how much packaging each item has, whether it has travelled from far away and whether any leftovers could be composted or recycled.
3. Think about any changes you could make to your packed lunch – how could you make it greener?
4. Redesign your packed lunch box. Draw in your new items, labelling any green changes you have made.
