### Warnings

REMEMBER - DO NOT USE INDOORS! FOR OUTDOOR USE ONLY. Great Care has been taken during production to remove sharp edges but you should handle all components with care to avoid possible injury.

- Keep a fire extinguisher handy.
- Hot fat may drip out at the bottom of the fire bowl so keep your feet clear.
- If fire flares up due to dripping fat, douse flames lightly with fine water spray.
- **DO NOT** touch metal parts of the BBQ until it has completely cooled to avoid burns. BBQ handles will be hot and unsafe to touch during use, unless you are wearing protective gear (pot holders, gloves, BBQ mittens, hot pad etc).
- Never handle charcoal after lighting.
- Ensure the coals have completely burnt before removing the ash.
- **Do not** be installed in or on recreational vehicles and/or boats.
- Store away **ONLY** when barbecue is completely extinguished and cool.
- In construction of this BBQ use all and only the components provided.
- **CAUTION!** Do not use spirit or petrol for lighting or relighting! Use only firelighters complying with EN1860-3.
- **CAUTION!** Keep well away from heat sensitive materials and objects.
- After use, extinguish and allow cooling.
- **Only store away when thoroughly cool and extinguished.**
- **CAUTION!** To avoid damage to property, **ALWAYS** place this appliance on a surface which is suitably heat resistant as this appliance will get extremely hot during operation.
- **CAUTION!** To avoid injury be aware that the resting surface directly underneath this appliance will get very hot during operation and will remain very hot for sometime after afterwards - keep feet, other limbs and all property/item well away from this area.
- **Attention!** This barbecue will become very hot do not move it during operation.
- **Warning:** Keep children and pets away.
- **Important!** Please retain this manual for future reference.
- Unwrap all packaging materials and place components on top of carton box or on a clean floor to prevent it from scratching.
- **Keep small parts out of reach of children.**

### Do's

Stand your barbecue on a safe, level surface, well away from flammable items such as wooden fences or over-hanging tree branches.

Keep children and pets away.

An adult should always be in charge of the BBQ. **NEVER** leave a hot barbecue unattended.

Be careful of sharp edges during assembly.

When you are ready to start, make sure you have the right tools, plenty of space and a clean, dry area for assembly.

Check the pack and make sure you have all parts listed.

During assembly children should be kept away from the product due to possible risk of injury.

Ensure this product is fully assembled as illustrated before use.

To clean wipe with a sponge and soapy water. Do not use solvent based cleaners or detergents as they can bleach or damage the product.

Tools not included.

### Don’ts

**CAUTION!** Do not use spirit or petrol for lighting or relighting! Use only firelighters complying to EN1860-3!

**ATTENTION!** Once lit **DO NOT** move your BBQ or leave it unattended.

Always make sure the barbecue is fully extinguished and completely cool before applying any covers (not included) OR storing away – remember coals can remain hot for sometime and could re-ignite under certain conditions **UNLESS** fully damped down and/or extinguished.

**CAUTION!** NEVER STORE a barbecue indoors unless ALL coals and ash have been thoroughly removed and thrown away outdoors and all barbecue surfaces have been cleaned and are cool, as otherwise this could lead to fire and/or emissions of poisonous gases which could cause death.

**DO NOT** use power to construction this product.

**DO NOT** over tighten screws or blots.

**DO NOT** tighten screws until fully assembled.

**DO NOT** sit or stand on the product.

**DO NOT** use the product if parts are missing, damaged or worn.

Our Promise
We are happy to refund or replace any Tesco product which falls below the high standard you expect. Just ask any member of staff. This does not affect your statutory rights.

In the case of any query regarding the use or assembly of your BBQ, including any missing parts, please contact the BBQ Helpline on 0870 066 6938.

Please have the Ref. number available to assist with your query. This is located on the front page of the instruction manual.
Instructions for use

Barbecue should be heated up and the fuel kept red hot for at least 30 min prior to the first cooking on the barbecue.
Method 1 - Charcoal & Lighting Fluid/Gel Follow Charcoal & Lighting Fluid/Gel product instructions and warnings.
• Set up your barbecue in a safe place with sufficient space and make sure the barbecue is installed on a secure level base.
• CAUTION: Carefully apply lighting fluid/gel in small amounts over the charcoal. Over application can be dangerous.
• DO NOT spill any lighting fluid/gel onto your hands or clothes.
• Wait for 30 seconds to allow the liquid to soak into the charcoal before lighting.
• DO NOT light the charcoal if you have spilt fluid or gel onto your clothes. Light the charcoal using a long taper or safety lighter.
• DO NOT squirt liquid onto burning charcoal.
Method 2 - Lighting Blocks Follow lighting block product instructions and warnings.
• Place three or four Lighting Blocks in the centre of the barbecue fire bowl and light with a match.
• Place pieces of charcoal around each burning block. Add more charcoal as required, in a pyramid formation.
• When burning is established, spread the fuel out evenly. The fire should be ready for cooking when even white ash or an even red glow is visible.
• DO NOT cook before the fuel has a coating of ash.
• Ensure that the cooking grill is fully located into the grill supports.

Care Instructions

Follow these instructions to maintain the appearance and life of this BBQ.
• It is not advisable to completely fill the fire bowl as the barbecue may become far too hot to cook successfully.
• Line the fire bowl with aluminum cooking foil, shiny side up, to make it easier to clean your barbecue after use.
• Leave ventilation holes clear by piercing the foil where necessary. This process will lengthen the life of your barbecue and reflect the heat more efficiently on to the food.
• To clean your grill, soak the cooking grill and tools in hot soapy water when the barbecue is completely cool as soon as possible after use.
• When you have finished cooking, never pour cold water directly on the coals to extinguish them as this may damage your grill. Use old cinders, sand or a fine water spray.
• Store in a cool dry place. Ensure it is clean and dry thoroughly cool and thoroughly cleaned of all ash and unused fuel/coals before storage. (See Warnings)
• Protect from severe weather conditions.
• Some components are held at BBQ service centre please contact 0870 066 6938 if you are missing parts.
